Marouane Erroujdani

Full Stack Developer

Proficient in React/Next.js, Node.js/Nest.js/Express.js, and TypeScript/JavaScript, with 2+ years of experience developing scalable web applications in consulting, SaaS, and logistics. Adept at API development, performance optimization, and delivering user-friendly solutions. Open to relocation.

WORK EXPERIENCE

Netnook (IT) — Full Stack Developer (Freelance)
Morocco, Casablanca (Remote) September 2024 - PRESENT

- Built and maintained a platform connecting schools and professors using Next.js and Nest.js.
- Achieved a 25% improvement in page load times through performance optimizations.
- Streamlined deployment processes on Vercel, ensuring a 99.9% uptime SLA.
- Collaborated with cross-functional teams to integrate seamless API workflows.
- Designed modern, responsive user interfaces with Figma and implemented them using HTML/CSS and Tailwind CSS.

  Tech Skills: React, TypeScript, Nest.js, Node.js, Vercel, GitHub, Jira, Figma.

ITO (IT) — Software Engineer Intern (PFE)
Spain, Melilla (Remote) February 2024 - July 2024

- Designed an AI-Powered Employee Profiling Platform, integrating OpenAI APIs and Hugging Face models for predictive analytics.
- Reduced processing time by 30% using optimized backend services with Strapi and Python.
- Developed intuitive UI designs using Figma and implemented them in React.
- Conducted end-to-end tests using Cypress, improving system stability.

  Tech Skills: React, TypeScript, Python, Strapi, OpenAI, PostgreSQL, Cypress, Figma.

ITPE (IT) — Full Stack Developer (Freelance)
Morocco, Casablanca August 2022 - September 2023

- Created 3+ scalable web applications using Next.js, focusing on responsive design and accessibility.
- Designed prototypes and mockups in Figma for web application components.
- Implemented robust caching strategies to enhance application responsiveness by 40%.
- Mentored junior developers, increasing team productivity by 20%.

  Tech Skills: React, Next.js, TypeScript, Node.js, MongoDB, PostgreSQL, Tailwind CSS, HTML/CSS, Figma.
